BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[DA 98-1705]

Dispatch Interactive Television Request

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On August 25, 1998, the Public Safety and Private Wireless Division released a public notice seeking comments on a request made by Dispatch Interactive Television, Inc. (DITV), for a declaratory ruling and waiver of the Commission's IVDS service rules. The waiver was requested to permit DITV to provide one-way voice or data transmission services, including paging services, over an interactive video and data service (IVDS) system it proposes to build in Indianapolis, Indiana.

DATES: Comments are due September 15, 1998 and reply comments are due September 30, 1998.

ADDRESSES: Federal Communications Commission, Room 222, 1919 M St., N.W. Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

James Moskowitz, Wireless Telecommunications Bureau, Public Safety & Private Wireless Division, (202) 418-0680, or via E-mail to "jmoskowi@fcc.gov".

SUPPLEMENTARY INFORMATION:

1. On June 9, 1998, Dispatch Interactive Television, Inc. (DITV), filed a Request for Waiver and Declaratory Ruling of §§ 95.855 and 95.859(a) of the Commission's Rules (Waiver Request). DITV seeks to provide one-way voice or data transmission services, including paging services, over an interactive video and data service (IVDS) system it proposes to build in Indianapolis, Indiana. The Commission now invites comment on this request.

2. DITV holds the B Block IVDS license in the Indianapolis Metropolitan Statistical Area (MSA), call sign KIVD0037. DITV is a wholly owned subsidiary of the Dispatch Printing Company, which in turn holds the license for television Channel 13 in Indianapolis, call sign WTHR. The system outlined by DITV in its Waiver Request contains a single cell transmitter station (CTS) co-located upon the antenna used by WTHR. DITV seeks permission to operate this CTS at up to 250 watts effective radiated power (ERP). Section 95.855 of the Commission's Rules, 47 CFR 95.855, limits the ERP of CTSs to 20 Watts ERP and Section 95.859(a), 47 CFR 95.859(a), further limits the ERP of CTS units to below 20 Watts if their antenna height above average terrain (HAAT) exceeds 36.6 meters. DITV's IVDS transmitter will be placed 212.2 meters HAAT.

3. DITV argues that its Waiver Request should be granted because the rules at issue were intended to ensure that IVDS signals would not interfere with TV Channel 13. DITV maintains that the design of its system eliminates this concern because co-locating the IVDS transmitting antenna with the TV Channel 13 antenna will ensure that the transmitting power disparity between WTHR and the IVDS signal will be maintained throughout WTHR's service area at approximately 10,000 to 1. This, DITV states, will ensure that the IVDS transmissions from the CTS will not interfere with the TV Channel 13 signal.

4. DITV further argues that granting its Waiver Request will serve the public interest by facilitating its efforts to obtain the equipment necessary to build and operate its IVDS system. DITV states that it cannot proceed with the development, manufacture, and purchase of equipment until it determines that the proposed system will be allowed to operate.

5. Interested parties may file comments on DITV's Waiver Request no later than September 15, 1998. Parties interested in submitting reply comments must do so no later than September 30, 1998. All comments should reference DITV's Waiver Request, and File No., DA 98-1705, and should be filed with the Office of Secretary, Federal Communications Commission, 1919 M Street, N.W., Room 222, Washington, D.C. 20554. A copy of each filing should be sent to International Transcription Service, Inc. (ITS), 1231 20th Street, N.W., Washington, D.C. 20036, (202) 857-3800 and to James Moskowitz, Federal Communications Commission, Wireless Telecommunications Bureau, Public Safety and Private Wireless Division, 2025 M Street, N.W., Room 8010, Washington, D.C. 20554.

6. The full text of the petition, comments, and reply comments are available for inspection and duplication during regular business hours in the Public Safety and Private Wireless Division of the Wireless Telecommunications Bureau, Federal Communications Commission, 2025 M Street, N.W., Room 8010, Washington, D.C. 20554. Copies may also be obtained from International Transcription Service, Inc. (ITS), 1231 20th Street, N.W., Washington, DC 20036, (202) 857-3800.

7. For further information, contact James Moskowitz of the Public Safety and Private Wireless Division at (202) 418-0680 or via E-Mail at jmoskowi@fcc.gov.

Federal Communications Commission.

D'wana R. Terry,

Division Chief, Public Safety & Private Wireless Division.
